LOOKING FOR A UNIVERSAL DENTAL APPLICATOR?

Say hello to ZerofloX™

The new standard
flock-free micro applicator.

UNIVERSAL HEAD SIZE

with a soft, pliable and thin anterior head design

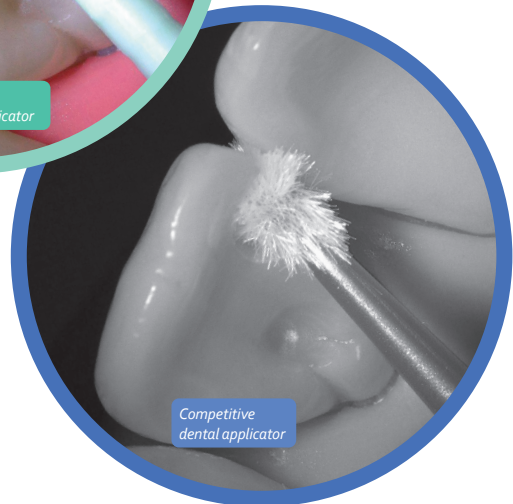

- effectively combines the fine and regular diameter sizes from conventional flocked micro applicators into **ONE SIZE** to help simplify clinical procedures and reduce inventory
- allows easy intraoral access for a wide range of clinical applications and indications for use

ZerofloX
micro applicator

These images showcase the comparison between ZerofloX and competitive dental applicator* (size 2.0 mm). The competitive dental applicator (size 2.0 mm) is seen to only fill the front of the cavity, failing to reach the desired tooth area. In contrast, ZerofloX fits perfectly inside the cavity, effectively reaching the necessary tooth area.

Competitive
dental applicator

TRY IT.
Apply it.
LOVE IT.

The ZerofloX micro-applicator is designed for **efficient & flock-free** application of:

- adhesives
- cements
- composite
- variety of other dental materials
