**MEDIA RELEASE**

Baar, Switzerland, March 18, 2026

**TIME names medmix as one of "World's Best Companies for Sustainable Growth 2026"**

medmix has been included in the 2026 edition of the "World's Best Companies for Sustainable Growth", a global ranking compiled by TIME Magazine in collaboration with data and research firm Statista. The list recognizes 500 companies worldwide that pair strong, profitable development with demonstrable progress in environmental performance.

The distinction places medmix among an elite group of organizations that excel across select critical dimensions, such as financial stability and environmental impact, including greenhouse gas emissions, waste management, water consumption, and renewable energy usage. Out of more than 4'000 global companies evaluated across all industries that transparently disclose environmental performance data, only 500 made the final list.

*"Being named one of TIME's World's Best Companies for Sustainable Growth 2026 is a strong confirmation of our strategy," said René Willi, CEO of medmix. "We are continuously improving our environmental performance and transparency for our stakeholders. This external validation reinforces that sustainability is a driver of innovation that benefits our customers, our business, and the planet."*

By using post-consumer recycled materials, improving resource efficiency, and pursuing science-based emission reduction targets, medmix translates its environmental commitments into measurable progress and long-term business performance. These efforts highlight medmix' ongoing commitment to sustainability across its operations and innovation pipeline.
