IS WHAT YOU SEE, REALLY WHAT YOU GET?

Say hello to ZerofloX™

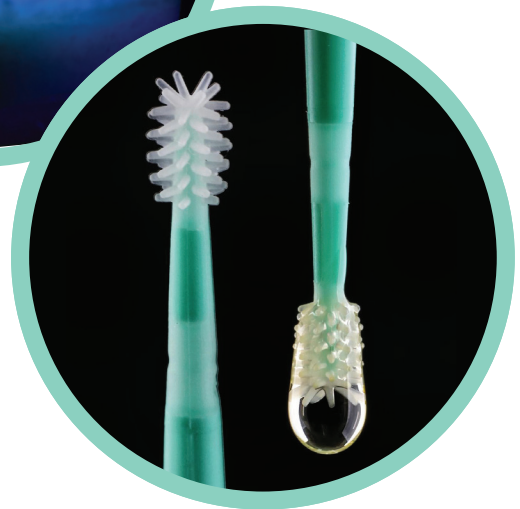

The new standard
flock-free micro applicator.

Flock Loss cannot always be seen,
but it's there.

- ZerofloX is FLOCK-FREE. Its fiber-free elastomer bristles ensure the final restoration remains uncontaminated.
- The ZerofloX micro applicator reliably holds the adhesive and stays intact during brushing test.
- Unlike traditional fiber brushes, ZerofloX provides uniform application due to its flock-free elastomer bristles.

Clinical application of Primer (Optibond FL) followed by fluorescent black-light to show lost fiber flocks using a conventional flocked-type micro applicator. Courtesy of Prof. Fabio M. Salomão DDS, MSc, PhD, Brazil

Dr. Daniel Rosa & Lara Toledo, Brazil

TRY IT. *Apply it.* LOVE IT.

 Swiss Quality
at the Highest Level

The ZerofloX micro-applicator is designed for
efficient & flock-free application of:

- adhesives
- cements
- composite
- variety of other dental materials

* Universal head size with a soft, pliable and thin anterior head design effectively combines the fine and regular diameter sizes used for conventional micro applicators into one size to help simplify clinical procedures and reduce inventory.
